Regional Economic Report (Summary) July 2019

Bank of Japan

This report summarizes the reports from all regional research divisions, mainly at the Bank's branches in Japan, and is based on data and other information gathered for the meeting of general managers of the Bank's branches held today. The English translation is based on the Japanese original.

I. Regional Economic Assessments (Overview)

According to assessments from regions across Japan, all nine regions reported that their economy had been either expanding or recovering. The background to this was that domestic demand had continued on an uptrend, with a virtuous cycle from income to spending operating in both the corporate and household sectors, although exports and production had been affected by the slowdown in overseas economies.

Compared with the previous assessment in April 2019, all nine regions reported that their assessments were unchanged. However, a somewhat increasing number of firms were pointing to heightening uncertainties over the outlook for overseas economies and their impacts, reflecting, for example, the U.S.-China trade friction.

Comparison of Previous and Current Assessments by Region

| Region | Assessment in April 2019 | Changes from the previous assessment ¹ | Assessment in July 2019 |
|------------------|--|---|--|
| Hokkaido | The economy has been recovering moderately. | ⇒ | The economy has been recovering moderately. |
| Tohoku | The economy has continued to recover moderately, although some weakness has been observed in part. | ⇒ | The economy has continued to recover moderately, although some weakness has been observed in part. |
| Hokuriku | The economy has been expanding moderately. | ⇒ | The economy has been expanding moderately. |
| Kanto-Koshinetsu | The economy has been expanding moderately, although exports and production have been affected by the slowdown in overseas economies. | ⇒ | The economy has been expanding moderately, although exports and production have been affected by the slowdown in overseas economies. |
| Tokai | The economy has been expanding. | ⇒ | The economy has been expanding. |
| Kinki | The economy has continued to expand moderately. | ⇒ | The economy has continued to expand moderately, although some weakness has been observed in part. |

¹ With regard to the changes from the previous assessment, arrows pointing to the upper right or lower right indicate changes in the pace of improvement or deterioration compared with the previous assessments, respectively. For example, an acceleration in the pace of improvement or deceleration in the pace of deterioration is indicated with an arrow pointing to the upper right. A horizontal arrow pointing to the right indicates that the pace of improvement or deterioration in economic conditions is unchanged compared with the previous assessment.

| | | | |
|----------------|--|---|--|
| Chugoku | The economy has been expanding moderately. | ⇒ | The economy has been expanding moderately. |
| Shikoku | The economy has been recovering. | ⇒ | The economy has been recovering. |
| Kyushu-Okinawa | The economy has been expanding moderately. | ⇒ | The economy has been expanding moderately. |

II. Assessments of Components by Region

| Region | Public investment | Business fixed investment | Private consumption |
|------------------|--|---|---|
| Hokkaido | Has been more or less flat | Increasing moderately | Recovering as a trend, although some weakness has been observed in some indicators |
| Tohoku | Declining, although it remains at a high level, primarily in construction orders related to the restoration and reconstruction following the earthquake disaster | Has been more or less flat | Has been resilient |
| Hokuriku | Increasing | Has been more or less flat at a high level | Picking up steadily, as the employment and income situation continues to improve steadily |
| Kanto-Koshinetsu | Has been more or less flat at a high level | Increasing | Increasing moderately, albeit with fluctuations |
| Tokai | Has been at a relatively high level | Has continued to increase, both in manufacturing and nonmanufacturing | Increasing moderately |
| Kinki | Has begun to pick up | Increasing | Increasing moderately on the whole, with the spending behavior of households improving, mainly on the back of the favorable employment and income situation |

| | | | |
|----------------|---|--------------------------|---|
| Chugoku | Increasing, amid the restoration- and reconstruction-related demand following the heavy rain in July 2018 | Increasing moderately | Picking up |
| Shikoku | Increasing | Has been at a high level | Picking up steadily |
| Kyushu-Okinawa | Has been at a high level | Increasing | Increasing moderately on the back of improvement in the employment and income situation |

| Region | Housing investment | Production | Employment and income |
|------------------|---|--|---|
| Hokkaido | Has been relatively weak | Bottoming out | Supply and demand conditions in the labor market are tightening; household income is recovering |
| Tohoku | Declining, with reconstruction demand following the earthquake disaster having peaked out, although it is still at a high level | Has been more or less flat | The employment and household income situation is improving |
| Hokuriku | Increasing | Has been relatively weak, although it remains at a high level | The employment and household income situation is improving steadily |
| Kanto-Koshinetsu | Has been more or less flat | Has been relatively weak | Household income has been on a moderate increasing trend, albeit with fluctuations, as supply and demand conditions in the labor market have continued to tighten significantly |
| Tokai | Has been on a pick-up trend | Has been on an increasing trend on the whole, although some weakness has been observed in part | Supply and demand conditions in the labor market are tightening and household income has continued to improve |

| | | | |
|----------------|---|--|---|
| Kinki | Picking up | Some weakness has been observed recently | With the steady tightening of supply and demand conditions in the labor market, the number of employees is rising and household income is increasing moderately as well |
| Chugoku | Picking up | Increasing as a trend | The employment and household income situation has continued to improve steadily |
| Shikoku | Has been more or less flat | Has been relatively weak in part | Supply and demand conditions in the labor market have been tightening and household income is picking up moderately |
| Kyushu-Okinawa | Has been at a high level, mainly on the back of the low interest rate environment | Has been relatively weak on the whole | Supply and demand conditions in the labor market have continued to tighten steadily, and household income has been on a moderate increasing trend |

Appendix: Prefectures Included in Each Region

| Region | Prefectures |
|------------------|--|
| Hokkaido | Hokkaido |
| Tohoku | Aomori, Iwate, Miyagi, Akita, Yamagata, and Fukushima |
| Hokuriku | Toyama, Ishikawa, and Fukui |
| Kanto-Koshinetsu | Ibaraki, Tochigi, Gunma, Saitama, Chiba, Tokyo, Kanagawa, Niigata, Yamanashi, and Nagano |
| Tokai | Gifu, Shizuoka, Aichi, and Mie |
| Kinki | Shiga, Kyoto, Osaka, Hyogo, Nara, and Wakayama |
| Chugoku | Tottori, Shimane, Okayama, Hiroshima, and Yamaguchi |
| Shikoku | Tokushima, Kagawa, Ehime, and Kochi |
| Kyushu-Okinawa | Fukuoka, Saga, Nagasaki, Kumamoto, Oita, Miyazaki, Kagoshima, and Okinawa |
